

LYNCH COURT

Detective Co.

Hullo and Welcome to the Lynch Court Detective Company!

We are so very pleased to have you as the newest member of our team. The life of a detective is exciting and invigorating, and I am sure you are eager to get started on your new career. For your first case, you'll be shadowing the brilliant Miss Loveday Brooke as she investigates the Mystery of the Drawn Daggers. What better way to learn the tricks of investigation than from our top detective herself?

Before you begin, ensure you have evidence packets A through D in front of you - but do not open them yet! Each evidence packet will be mentioned by name as our case unfolds. When a packet is mentioned, pause the audio recording and open that packet to examine the clues inside. Jot down observations, compile notes, and see what you can make of these curious events. Then, resume the audio whenever you're ready. Everything else in your virtual ticket can be opened as soon as you choose.

While you are experiencing this case using the latest technology, there is an alternate version of this experience that includes physical materials that arrive by mail. I've included pictures of some of those materials for your persual. As an extra treat just for you, I've included a final bonus puzzle. Good luck solving it! We'll all be waiting at the Lynch Court office to see if you can find your way.

Now, take a moment to settle in. Find the key to your desk and brew yourself a cup of tea (this blend is Miss Brooke's particular favorite). And if Mr. Dyer stops by to offer his "help", feel free to send him over to me. Don't be alarmed by his gruff nature—he means well.

Good luck and enjoy!

All the best,

Miss Elsie Elm
